

Instruction Guide

John Deere Hinson Step & Handrail (PN: Step-3408 / Handrail-3343)

1. Loosen the set screws of the original step and remove the bottom section.
(The **top section** remains on the tractor.)

2. Remove the three 1/2" capscrews that fasten the cab support bracket to the tractor housing.

3. Place the step **mounting bracket** over the cab support and match the holes of both parts (cab support and **mounting bracket**). Fasten with three 1/2" x 1 1/4" bolts and lock washers.

4. Insert the **pivot arm** of the **top step section** into the **mounting bracket** and secure with two 5/8" x 4" capscrews and flange nuts.

5. Rotate the step to the desired position and securely tighten all bolts.

6. Slide the **bottom step section** along the outside of the **top step section**. Adjust to the desired height and fasten with two 3/8" x 3/4" carriage bolts and flange nuts in the rear holes.

7. Fasten the front holes, along with the **handrail**, using two 3/8" x 1" carriage bolts and flange nuts.
