

KM 1310 Uni Pro
Seat & Suspension
PN: 8276

PN: 6121

Installation Instructions KM 1310 Uni Pro Seat and Suspension in John Deere 7000-7010 Series Tractors

1. Remove the original seat and suspension from the tractor along with the seat mounting plate. Keep mounting hardware for later use.
2. If ordered with swivel install swivel at this time.
Note: See install guide included with kit PN 5007.
3. Attach seat assembly to mounting plate PN 6121 as shown with tapered holes down. Install with four 8mm-1.25 x 20mm tapered bolts and four 8mm flange nuts.
4. Place seat in position in cab and use the bolts and hardware removed in Step 1. to fasten seat mounting plate in place.
5. To connect wiring use wiring harness or adapter included in kit to plug and play on most models.
