

## Installation Guide

### Installation Instructions to Assemble KM 1061 Uni Pro Seat & Suspension in John Deere 7000-7010 Series Tractors

KM 1061  
Uni Pro Seat  
& Suspension  
PN: 8436

1. Remove the original seat and suspension from the tractor along with the seat mounting plate. Keep mounting hardware for later use.
2. If ordered with swivel install swivel at this time.  
**NOTE: See install guide included with kit PN 5007.**
3. Attach seat assembly to mounting plate PN 6077 as shown with tapered holes down. Install with four 8mm 1.25" x 20mm tapered bolts and four 8mm flange nuts.
4. Place seat into position in cab and use bolts and hardware removed in Step 1. to secure seat mounting plate into place.
5. To connect wiring use wiring harness or adapter included in attaching kit to plug and play on most models.

PN: 6077
