

# Installation Guide

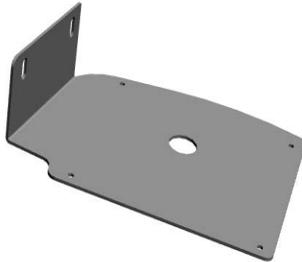

## Installation Instructions to Assemble KM 1061 Uni Pro Seat & Suspension in John Deere 7020-7030 Series Tractors with ITV Transmissions

KM 1061  
Uni Pro Seat  
&  
Suspension  
PN: 8436

1. Remove the original seat and suspension from the tractor along with the seat mounting plate. Keep mounting hardware for later use.  
**NOTE: RH arm rest needs to be removed.**
2. If kit was ordered with a swivel or if tractor is equipped with ITV transmission install the PN 5007 Swivel and the PN 6118 Command Arm Bracket now. See install guides included with each kit.
3. Attach seat assembly to mounting plate P/N 6077 as shown with tapered holes tapered down. Install with four 8mm-1.25" x20 mm tapered bolts and four 8 mm flange nuts.
4. Place seat into position in cab and use the bolts and hardware removed in Step 1. to fasten the seat mounting plate in place.
5. **To connect wiring use the wiring harness or adapter included in kit to plug and play on most models.**

PN: 6118

PN: 6077
