Available
PN: 5007

PED
PN: 6127

1. Remove the original seat and suspension from the tractor by removing four 1/2" nuts from the base bracket, attaching suspension to the floor of the cab.
2. Bolt the new suspension assembly to the Pedestal 6127 using four 8mm x 20mm bolts, flat washers and flange nuts.
3. Attach the suspension and pedestal to the four stud bolts and spacers where the original seat was removed. Use original 1/2" nuts from Step 1 to fasten down suspension and pedestal.
4. Bolt the seat and slide rail assembly to the suspensions assembly. (slide seat forward to access rear holes two holes and all the way back to access front two holes in slides.)
5. Locate a power source and connect the suspension to power and ground. (Wiring harness provided if needed).
