

Installation Guide

KM 1000 or KM 1003 Uni Pro Seat & Suspension in CIH 71 Series Magnum Tractor with original Air-Oil Suspensions (PN: 6554 or 6683)

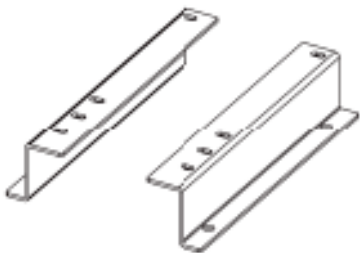

KM 1000 or KM 1003 Uni Pro
PN: 7612 or 7915

Optional
Swivel Kit
Available
PN: 5003

1. Remove the original seat and suspension from the tractor. Also remove the two hydraulic lines from the fittings that come through the floor. Leave the original studs and spacers in place.
2. Use the hydraulic caps provided to cap the fittings of the lines that were removed. (Lines should be capped below the cab.)
3. Bolt the KM Uni Pro seat and suspension assembly to the 6098 pedestals with four 8mm x 20mm bolts, flat washers, and lock washers.
4. Place the pedestal and seat & suspension assembly on to the stud bolts and spacers where the original seat was removed. Use the original hardware to fasten down the seat.
5. Locate power cable coming from lower part of suspension and connect to 12v power source from tractor (pigtail harness provided.)

NOTE: The seat is equipped with an Operator Presence Switch. If the tractor is not the OPS will not be used. The wire harness can be tied up and out of the way.
