

## **INSTRUCTION GUIDE 1202**

- 1. Slip the hook of the mounting bracket over the cross tube of the combine frame and fasten to the existing hole with a 3/8" x 1" bolt and flange nut on each side.
- 2. Drill the second hole on each side of the mounting brackets and attach with 3/8" x 1" bolts and flange nuts.
- 3. Bolt the two sections of the Main Bar together with four 3/4-10 x 2 bolts, lock washers and nuts.
- 4. Mount the main bar to the mounting brackets and fasten with two 4" U-bolts and flange nuts.
- 5. Place the extension bars on top of the main bar and secure with four 4" U-bolts and flange nuts. Adjust to match wheel spacings.
- 6. Attach the stingers to the extension bars and fasten with the stinger backup plate, eight 1/2" x 6" bolt and flange nuts.
