BENEFITS OF LIQUITUBE®:

- Top selling permanent premium tire sealant in the USA
- Heavy-duty tire sealant formulated for use in any air filled tire to help provide full protection against punctures, air loss and other leaks
- Extends life of tires by creating a seal that is strong enough to hold up to driving conditions and is designed to work in most weather and temperature conditions
- Coats inside of tires and wheels to keep air filled tires properly inflated for the life of the tire
- Increases your profits by extending tire life, increasing fuel economy of vehicles, reducing equipment downtime from flat tires, eliminating tire repair costs, reducing lost man hours from flat tires, reducing tire casing damage from blow-outs and extending the retreadability of tire casings

LIQUITUBE® FEATURES:

- Seals punctures up to 1/4" in standard tires & up to 3/4" in heavy ply tires
- Effective from -45° F to over 200° F
- Keeps tire up to 35° cooler
- Effective for the entire lifetime of your tires
- 100% water soluble for easy cleanup
- Developed for commercial & industrial tires subject to hard & heavy use
- Meets EPA standards for municipal disposal
- Nonflammable & nonhazardous
- Will not rust, corrode or pit wheels
- Does not void tire manufacturer warranties
