APPLICATIONS

Tractors

Dynamic Dampening Suspension (DDS) System Features:

- Provides a smoother ride than normal air suspension seats
- Responds to low frequency vibration/bumps that normal air suspensions can not
- Responds quicker to vibration and bumps than typical air suspensions (all this is done automatically to keep operator comfortable)
- Capable of providing all of this because of enhanced engineering using technology along with maintained air capacity in the suspension to allow for quicker response and limiting the suspension so it does not bottom or top out

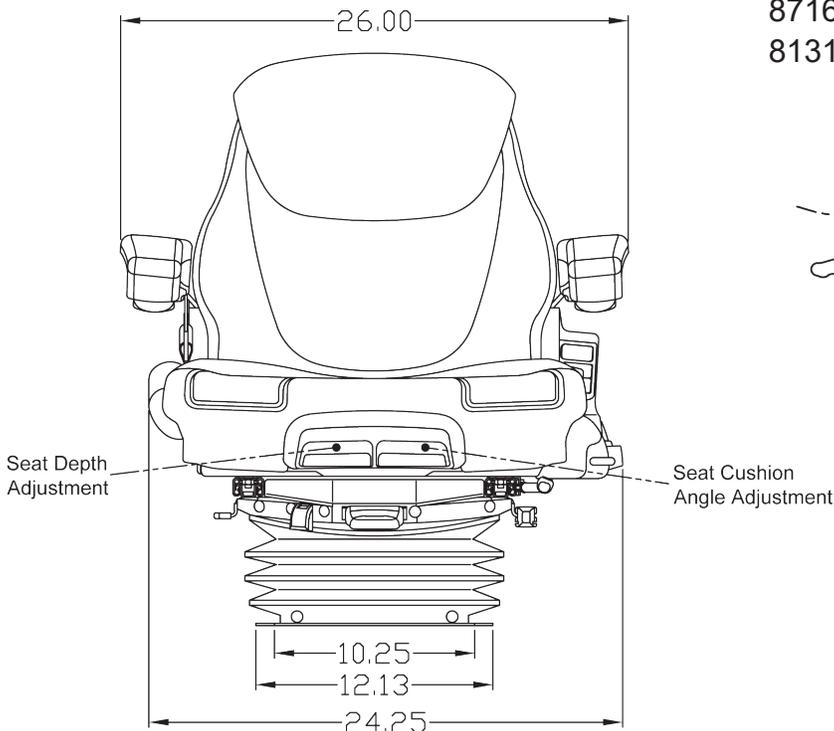

OPTIONS

- 5007 Swivel Kit
- 7996 Retractable Seat Belt
- 8400 MSG85/95 Lateral Isolator Kit
*Will only work if a Grammer 700 Series seat top is being used

MAINTENANCE ITEMS

- 8454 Replacement Backrest Extension (Brown Fabric)
