

John Deere 30 Series MudMat

Durable Black
Plastic
PN: 4356

MUDMATS ARE CUT-TO-SIZE & FLEXIBLE MAKING REGULAR CLEANING EASIER THAN BEFORE

MudMats are the ideal solution to making it easier to remove your floor mat for regular cleaning of your tractor cab floor. They act as a tray to catch any nuts and bolts you might drop. Plus the cab floor is easier to clean if you chew sunflower seeds, or if you track in mud from your boots.

APPLICATIONS

Tractors

Fits - John Deere® 30 Series Tractors (Early Models with Narrow 7" Seat Cavity or Late Models with Wide 11" Seat Cavity):
4030, 4230, 4430, 4630

Fits on Top of John Deere® Part Number: R50761

**Note: Models with an optional foot throttle may have to modify MudMat for it to fit correctly. Will not work with any aftermarket items protruding through the floor mat (loader controls, hydraulic lines, etc.) without modification.*

- For floor mats approximately 0.5" or less in thickness
- Designed to work alongside OEM floor mat
- Main benefit is that this MudMat can be easily removed for regular cleaning
- Contains 1 piece
- Accent lines designed directionally making it easier to sweep floor
- Provides a non-slip surface while entering or exiting cab
