

John Deere 7000-7010 Series MudMat

Durable Black
Plastic
PN: 4360

MUDMATs ARE CUT-TO-SIZE & FLEXIBLE MAKING REGULAR CLEANING EASIER THAN BEFORE

MudMats are the ideal solution to making it easier to remove your floor mat for regular cleaning of your tractor cab floor. They act as a tray to catch any nuts and bolts you might drop. Plus the cab floor is easier to clean if you chew sunflower seeds, or if you track in mud from your boots.

1" lip formed almost all the way around the perimeter

**Durable and flexible
Black formed
plastic**

APPLICATIONS

Tractors

Fits - John Deere® 7000 and 7010 Series Tractors:

7000 Series: 7200, 7400, 7600, 7700, 7800

7010 Series: 7210, 7410, 7510, 7610, 7710, 7810

Fits on Top of John Deere® Part Numbers: R111634,
R118025, R170498

**Note: Models with an optional foot throttle may have to modify MudMat for it to fit correctly. Will not work with any aftermarket items protruding through the floor mat (loader controls, hydraulic lines, etc.) without modification.*

- Designed to work alongside OEM floor mat
- Main benefit is that this MudMat can be easily removed for regular cleaning
- Contains 1 piece
- Accent lines designed directionally making it easier to sweep floor
- Provides a non-slip surface while entering or exiting cab
