

John Deere MudMat

For 8000-8020T Series & 4000-4030 Sprayer

Durable Black
Plastic
PN: 4361

MUDMATs ARE CUT-TO-SIZE & FLEXIBLE MAKING REGULAR CLEANING EASIER THAN BEFORE

MudMats are the ideal solution to making it easier to remove your floor mat for regular cleaning of your tractor cab floor. They act as a tray to catch any nuts and bolts you might drop. Plus the cab floor is easier to clean if you chew sunflower seeds, or if you track in mud from your boots.

1" lip formed almost all the way around the perimeter

Durable and flexible
Black formed
plastic

APPLICATIONS

Tractors

**Note: Models with an optional foot throttle may have to modify MudMat for it to fit correctly. Will not work with any aftermarket items protruding through the floor mat (loader controls, hydraulic lines, etc.) without modification.*

Fits - John Deere® 8000, 8010, 8020, 8000T, 8010T and 8020T Series Tractor, and 4000-4030 Series Sprayers:
